

Same agent who has brings on 4 agents with them.

1. 8,800
2. 9,600
3. 10,400
4. 11,200
5. 12,000
6. 12,000
7. 12,800
8. 12,800
9. 13,600
10. 13,600
11. 13,600
12. 13,600

**\$236,800 first year**

Now the agent makes \$144,000 instead of \$117,600 for additional \$26,400 ( not bad for sharing the opportunity ). On top of them getting paid more for what they sold, the agent will receive another \$92,800 for the volume the agency did for the year.
